

## MAIL ORDER MAGAZINE BINDING

Do you value your magazines you subscribe to or that you edit or produce? If so, why not let us bind the individual loose issues into prestigious looking, space saving volumes? The bound volumes will be so much easier to house on your bookshelves and be much better when you refer to or use them. Your favourite magazines will then build up to a collection you can be proud of and the valuable information will be protected from possible damage for years to come.

**So whether your interest is in ornithology and wildlife, trains and locomotives, history, nature, heritage, medicine, law or business contact us today about your magazine binding needs.**

### CHOOSE YOUR OWN STYLE & FORMAT

We hold an extensive range of binding covering materials in stock including over 39 different colour shades of waterproof library buckram cloth as well as various colours of calf skin or Niger leathers from which you can choose. Select from the following styles:

- **Full cloth binding**
- **Quarter calf or Niger leather binding** with cloth sides (& leather spine)
- **Half calf or Niger leather binding** with cloth sides (& leather spines and corners)

The normal format is to have the loose issues bound up in chronological sequence with their covers in place as published and the volume index bound in at the rear. All pages are sewn together and the case is made and blocked in gold foil with title and volume/year details. Your initials can be added to the bottom of the spine of the book if required. A record is always kept so that your future volumes sent to us for binding can be bound to match previous bound ones.

Variations you can opt for are:

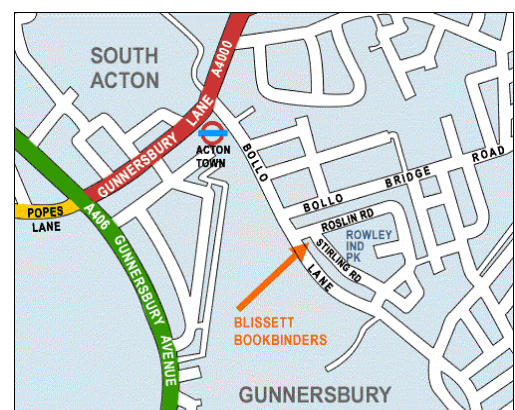

- **Individual covers of issues can be removed by us before binding**
- **Volume title and number/year can be blocked in gold on the outside front board of the case as well as the spine**
- **Black leather title piece/lettering labels can be added to spines**
- **Additional gold rule lines can be added to the top and bottom of spine**
